Public Service Announcement from the Wisconsin Council on Children and Families:

Wisconsin child passenger safety law changes go into effect on June 1st. Parents and those who transport children in vehicles on Wisconsin roads need to be aware of the change. The standards follow recommendations of the American Academy of Pediatrics and reflect improved knowledge and products for the safety of children in cars.

The new safety restraint laws for children fall into four basic categories; children under 1 year old or under 20 lbs, toddlers and pre-schoolers age 1+ to 4 years old, children 4 to 8 years old and children over 8. A free printable flier with details of the law is available at: http://wccf.org/pdf/safekidsupdate_kidsincars.pdf

Note to newspapers: Please print actual flier if you have space.
