

Do you have a health care story to tell?

- Do you or your children lack health insurance?
- Are you or have you been pregnant and without health insurance?
- Did you or your children used to get BadgerCare or Medicaid but lost coverage because of eligibility requirements or paperwork?
- Do you know kids aging out of the foster care system who do not have health insurance?
- Are you a single adult who does not have health insurance?

The Wisconsin Council on Children and Families (a nonprofit advocacy organization) is **looking to interview families & individuals who lack health insurance** and who would be covered under health care proposals being discussed in Wisconsin's legislature - including proposals that would expand health insurance to nearly all children in our state.

If you're willing to share your story publicly or if you know families or individuals who might do so:

please contact Vicky Selkove at (608) 284-0580, ext. 326 or vselkove@wccf.org.

We are able to offer gift certificates or gas cards to individuals or families who: 1) lack health insurance now but who would gain health care coverage under expansion proposals & 2) are willing to be photographed & share their stories publicly.
