

Joint Finance Committee Public Hearings and Other Budget Events 2011

Tuesday, April 12 - WCCF Webcast on State Budget Issues

The webcast has been archived and is available for viewing at <http://www.wccf.org> or <http://www.wisconsinbudgetproject.org/> . In this presentation, Jon Peacock examines the portions of Governor Walker's proposed 2011-13 budget that affect children and families, with particular attention to the potential impact of cuts in health care, early education, and local aid, as well as changes in taxes and revenue.

Listed below is a schedule of upcoming Joint Finance Committee budget hearings and budget briefings hosted by legislators.

Joint Finance Committee Public Hearings on the Governor's 2011-13 Biennial Budget. The Joint Finance Committee has announced four statewide hearings on Governor Walker's State Budget Bill. This is where you can tell the committee what you think is important in the state budget. Try to attend one hearing that is most convenient for you. We recommend getting to the hearing early and plan on a long day. It is your one chance to testify in front of the committee. Please remember that it is still very important to keep contacting your own state Representative and Senator to let them know what your priorities are in the state budget. Print this information and schedule below.
